📍 Zamboanga City, Zamboanga Del Sur, Zamboanga Peninsula, PHL

Electronics Engineering student and AI Solutions Engineer specializing in multimodal data pipelines (audio/image) and local LLM deployment. Expert in architecting automated workflows using **n8n**, **llama.cpp**, and **Python (Pytorch/Pydantic)**. Published author and campus leader with a proven track record in digital marketing and technical peer-mentorship.

## Education

**Ateneo de Zamboanga University**  
Engineering

B.S. Electronics Engineering (ECE)  
Zamboanga City, PHL • 2023-2027

- **Honors:** Consistent First Honor Dean's Lister with a 3.5+/4.0 GPA.
- **Scholarship:** 100% Merit-Based Blue Eagle Scholar covering all tuition and fees.
- **Leadership: President of a Tutoring Organization** – Leading campus-wide peer-mentorship and teaching advanced Engineering Mathematics and technical concepts.

## Skills

### 🛠️ AI, Coding & Automation

n8n, llama.cpp, ComfyUI, Python, GDScript, MySQL, PyTorch, Pydantic, React, Node.js, TypeScript, REST API

### 📁 Business Tools

Meta Ads, Telegram Ads, Jira, Trello, MetaBase, Excel, MS Teams, Slack

### 🏗️ Engineering & CAD

EAGLE Autodesk, AutoCAD, Logisim, LTSpice, Microcontrollers, Circuit Design

## Certifications

### English Proficiency

EF SET  
C2 Proficiency

### Python

IBM  
December 30, 2025

## Interests

⚙️ **Technical:** AI Automation, Game Dev, Trading (SMC/Forex), Charts.

🎮 **Creative:** Gaming, Cosplaying,  
♥️ **TCGs, Writing, Typology, Psychology, Philosophy.**

🛼 **Active:** Inline Skating, Ice Skating

## Publications

**The Dao of the Psyche**  
Amazon  
Social Philosophy and Self-Help Book

## Experience

### Thoth AI

AI Technical Specialist

Remote

February 2026 – Present

- Executing high-precision audio annotation and acoustic data segmentation to train speech recognition and NLP models.
- Evaluating project-specific datasets to ensure high-fidelity labeling for specialized AI training initiatives.
- Managing technical deliverables across multiple project cycles, ensuring accuracy in time-sensitive audio processing tasks.

### iMerit

AI Technical Specialist

Remote

January 2026 – Present

- Performing detailed image annotation and visual data labeling for computer vision projects, ensuring rigorous quality standards for visual datasets used in enterprise-level AI model development.

### TAR Global

HR, Project & Marketing Manager

Remote

February 2025 – February 2026

- **Operations:** Managed the full HR lifecycle, including end-to-end recruitment, contract drafting, and the development of training documentation.
- **Project Management:** Directed dedicated teams for website refinement projects, utilizing Trello to enforce deadlines and track initiative status.
- **Digital Marketing:** Spearheaded targeted digital advertising campaigns using Meta and Telegram Ads to drive strategic decisions.
- **Leadership:** Maintained daily operational accountability for team attendance and project milestone adherence.

### Havij App

Product Manager

Remote

July 2025 – Sept 2025

- Led the full product lifecycle for a learning competition app, delivering the Minimum Viable Product (MVP).
- Spearheaded UI/UX design and authored all critical functional and technical requirements.
- Directed cross-functional development teams to define the user experience and drive market readiness.
